I've dealt with most of the people working there and everyone is very helpful. Most recently Art called me to say that he could save me money with the car and house ins. He spent a great deal of time with me and I was so excited that he saved me about \$450 from the previous year. I would definitely recommend this company American Financial Solutions

American Financial Solutions offers excellent service in both tax prep and insurance needs. Owner and staff are very personable and will talk to you and explain anything you have questions on. If you choose to go to them for your insurance needs; they will shop your policy around to make sure you get the lowest deal and at the time for renewal, they'll shop around to make certain you getting the best possible value. Amazing company which puts the customer first!!!

I've had my insurance policies through this company for over 25 years. It's hard to say exactly, but I saved many thousands of dollars over that period of time. The staff is super friendly and it's always easy to get hold of them. The service has always been prompt.

I know that it's very early to tell, but I am extremely happy with the customer service that I received on my first contact with this company. I am working on debt management and the counselor was very professional and honest with me in a way that a trusted family member would be. I am genuinely looking forward to working with this company towards a better financial future for my family.
